

APA Style CENTRAL® Quizzes and Tests – Faculty & Librarian Guide

Self-quizzes are available to all users in the APA Style CENTRAL Learning Center. These quizzes are intended for student self-assessment.

Graded tests are available for incorporation into courses in your institution’s learning management system (LMS) through LTI integration. (Check with your librarian or campus LMS administrator to find out if this integration has been set up for your institution.) These graded tests correspond to self-quiz content, so the self-quizzes make good study tools for students preparing to take a test.

Refer to the list below to see what learning objects are covered in the self-quizzes and graded tests.

Quiz/Test Title
